New Orleans: August 13.—The cotion market had a firm undertone from start to finish to-day. It was wholly a weather market, and the drought in the western portion of the belt was the dominating influence.

The market opened steady at an advance of 9ril points. Liverpool was better than due, which private advices said was caused by heavy Continental buying which was supposed to be based on expectations of a brillian weekly weather summary. The market gradually worked higher all day, in the afternoon standing 2022 points over yesterday's closing level. In the early trading the advance amounted to about 15 points, following a small reaction at noon the market went higher than ever. The close was steady at a net gain of 21422 points. Spot

# NO INCOME TAX IN LEE COUNTY!

Sworn Returns Show That No Citizen Is Making More Than \$2,000 a Year.

THE CASE OF HENRY COUNTY

Operated at Loss to State, Expenses Being Greater Than Tax Receipts.

Nobody living in Lee County makes as much as \$2,000 s year, according to the sworn statement of the three commissioners of revenue for that county. The county was operated last year at a net loss to the State of \$16,943.08, its criminal and other expenses having drawn from the State treasury \$41,251.36, while the total of revenue collected from the county was but \$24,308. Reports from the three districts of assessments made for the current year fall to show any returns for incomes, and a much smaller percentage of increase in tangible and intangible personal property than has been discovered by more energetic commissioners of the revenue in other counties. as much as \$2,000 s year, according to

Henry is another county drawing more from the State treasury than it pays in, and in which there is comparatively little increase, the total income of all citizens living in the Sec-ond District of that county according to the sworn statement of the commisto the sworn statement of the commissioner of revenue, having been \$1,500. Henry County paid into the treasury last year \$22,440, and drew out \$28,185, being operated at a loss of \$5,745, although it is regarded in some respects as one of the richest agricultural counties in the State. The report of the Commissioner of Agriculture in regard to Henry County says that the average value of improved farm land is \$20 per acre, while the average assessment is \$5.25 per acre. The same report says that one farmer raised a crop of hay lust year which sold for \$30,000.
